HELMETS

FOR LIFE

X-PRO CARBON

PIONEERING CARBON HELMETS

The all new X-PRO Carbon Technology provides an unmatched strength to weight ratio.

Engineered for the elite and the weight conscience motorcyclist this next generation technology uses aerospace knowledge together with 3K carbon to obtain a composite construction that makes the shell lighter, stronger, and even more comfortable.

Similar to a spider's web, the new X-PRO carbon with 3K carbon fabric is 10% lighter than other carbon shells, offers greater stiffness and ultimate strength.

The high fiber content ($\geq 60\%$) maximizes the mechanical properties of the composite shell while the fiber distribution guarantees a uniform strength in all directions together with an exquisite appearance.

Everything you'd expect from one of the most advanced carbon fiber helmet technologies ever.

SPECS

1 X-HIDRO

Another special feature is the new X-HIDRO system. Get quick access to water with the new Kit! Making it easy to stay hydrated and keep your focus while riding. With an easy and fast setup, the new X-HIDRO kit will be available as accessory and is compatible with all the X.WED2 models.

2 X- PRO CARBON FIBER

The new X.WED VAAL is a masterpiece of technology. Presenting X-PRO Carbon Fiber – a new technology, that allows an even lighter carbon shell.

3 CHINSTRAP

The chinstrap cover is detachable, easy to remove and clean.

Full Face Helmet

It may look like grandpa's helmet but they are not - X.G100 take retro-style motorcycle helmets a step further by blending 50s and 60s inspiration with cutting edge technology. The masterly designed interior is both stylish and simplistic and the pinnacle of the X.G100 comfort. The X-Mart Dry technology brings a soft touch and a clever cooling system featuring a drying rate, twice as fast as normal cotton and gives extra insulation on colder days. The clip-on shield, stylishly tailored with optic leather bands, gives that retro-style look. Made of PC Lexan, optical class, the shield is prepared to fit a special Raleri's fog free lens. All X.G100 present very light outer-shells made with new X-Matrix2 technology, a process that combines fiberglass, 3D organic fibers, special weaving structural fibers; high performance organic fibers; biaxial fiberglass twile; organic fibers. Anti-fog lens included in all X.G100 models.

Full Face Helmet

X.G200 revives the classic design, unlike anything else in the off-road helmet arena. The classic aesthetic proportions of the X.G200 – the extremely round shell, the strong chin line and the rewarding design of the peak – recall the dirt helmets of days gone by. This is classy nostalgia: a reinterpretation of classic, aesthetic principles, rounded by cutting edge technology.
